

Logicca was formed in July 2006 with four of the Directors having previously worked together in a Big Four firm deciding to merge sole practices and the fifth Director joining from a larger firm who was looking for a new adventure.

“Modern new premises in Macquarie Street were chosen to ensure high quality staff were recruited and retained, ensuring our service to clients continues to be of the standard expected from larger firms. We had the same goal for the technology we implement, ShoreTel has exceeded our expectations” Peter Hersh, Director

“ Our clients range from individuals to large organisations getting ready to list on the Australian Stock exchange so we wanted a system that would provide a high level of integration yet easy for our staff to use and manage. We are quite dependant on our Blackberry devices and the introduction of ShoreTel Mobile Call Manager provided greater call control and efficiency “ added Peter

Installed on a supported mobile device & mobile network, ShoreTel Mobile Call Manager client brings the power of Personal Call Manager to a mobile phone. Users can make and receive calls transparently, as though they are at their desks. Key Features:

- Changing call handling modes
- ShoreTel voice mails
- Corporate Directory
- Changing office anywhere modes
- Quick dialling

About Logicca

Logicca Chartered Accountants provide tax advice, audit and advisory services, business services, tax compliance and other services typical of Public Accountants. Our clients value our informal approach to complex issues and appreciate the high quality of our staff.
